

Business Process Improvement

**Innovate
Share Risk
Superior ROI**

'Business Process Improvement is the No 1 priority of our IT organization' according to 66% of the IT executives interviewed by CIO Insight in 2007.

If you are facing these challenges in your organization...

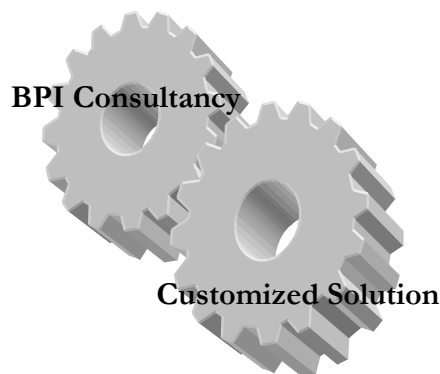

- Redundant Activities
- Too much idle time
- Insufficient automation slowing process completion
- Slow reactive processes rather than proactive or anticipative
- No clear process owner exists
- Over/under management complicating the process
- Information is in silos and not integrated
- Higher than acceptable unit cost

This is how Wisdom InfoTech can help you...

Wisdom InfoTech will work with you to help align your business initiatives with technical initiatives to ensure long term success and maintain a sustainable competitive advantage. Identifying these alignments will point out the technology to accelerate for each organization or business unit.

Wisdom InfoTech's BPI Solutions...

Wisdom InfoTech's BPI Practice underlines our continuous effort to provide comprehensive services to our customers in cutting edge technologies. We offer integrated services across the BPI value chain.

Business Process Improvement

Wisdom InfoTech delivers smart business process improvement solutions by combining:

- **Original thinking.** We bring fresh approaches to the problems of business process and work-flow reengineering. We help our customers look at their day-to-day challenges in a fresh light, then apply inventiveness and intelligence to develop new and different approaches.
- **Bottom-line results.** We specialize in developing creative and practical business solutions that are designed to help our customers accomplish more with less. Less investment. Less manpower. Less hassle.
- **Practical, yet innovative application of technology.** In today' enterprise information technology world, you seldom start with a clean slate. The reality is that you need to effectively navigate a mixed-computing environment that includes legacy applications, multiple-vendor relationships, and established networks. Wisdom InfoTech's BPI approach & solutions creatively maximizing existing resources to produce high-impact results for our customers.

The benefits that our clients have achieved are:

- Increased productivity
- Improved customer service levels
- Reduced operating expenses
- Quicker response to the changing external factors & competitive market place
- Improved staff morale

Please call us and our business process analysts will come in to assess your needs and understand your problems. We will provide you with a customized benefits analysis to evaluate how and where we can bring value to your organization.
