

WISDOM INFOTECH

Your Partner For Success

We are an award winning IT Services and Solutions provider of Business process improvements, Business Intelligence, Software development, Software implementation & support, IT Planning, and more, to a wide variety of industries. We have a shared-risk delivery model that results in high economic value. Our offices are at Milwaukee, WI (Corporate); Edison, NJ (Sales); Chennai, India (Offshore Development Center) and Shanghai, China (Regional Delivery Center).

Wisdom InfoTech, a privately owned company, was established in 2000. Inc.500 has selected Wisdom InfoTech in the 2007 and 2008 list of nation's fastest-growing private companies. The Metropolitan Milwaukee Association of Commerce has recognized Wisdom InfoTech, for three years running, as a young, fast growing company. In 2005 and 2006, Wisdom InfoTech was also recognized in the top five of Future 50 Companies. The award recognitions are based on outstanding achievement based on performance, growth and employment opportunities

Wisdom InfoTech prides itself in providing value added innovative technology solutions for our clients. We provide diverse technology solutions focusing on the present requirements and future needs of our clients. Wisdom maintains its business practice of creating high ROI while sharing the risk of implementing the latest and greatest in this era of exponentially growing technology offerings.

We offer a comprehensive range of solutions and services diversified over the functional and operational IT domain.

Quality Policy ▶ ▶ ▶

We will continuously strive to perform defect-free work in providing products and services that meet customer requirements right the first time, on time, every time.

Process

The Tandem Taskforce

Ours is a spirit of cooperation. We team up our professionals with our client's workforce creating the most suitable mix for optimum results. We employ teamwork, comprehensive dialogue, and training as vehicles to deliver the right solutions enabling our clients in orchestrating more efficient business.

What's on the table?

Value - Otto Frederick Rohwedder invented neither slicing nor bread but to date we all speak of the "value" of sliced bread. Ours is a similar philosophy as we create value every time doing things anew. We bring an outside perspective to change things on the inside.

Experience - A rich knowledge base compounded over many assignments, we offer a comprehensive and fresh view to problems and finding the right solutions.

Evolving - Change is the only constant. We keep pace with the dynamic information technology world, evaluating ourselves, and training. We apply the knowledge gained to the business challenges and needs of our clients as we try to improve everything we do.

Flexible - We are flexible in our execution and contractual engagement approach. We are a business partner ready to assume some risks as our statement of commitment to the growth of our clients.
